

## STRIVING FOR EXCELLENCE WOMEN IN LEADERSHIP

### INVEST IN WOMEN TO CARRY YOUR ORGANIZATION FORWARD

#### Drive Your Organization Forward With Female Leaders Who Contribute to Long-Term Success

Women face unique challenges and demands as career professionals. PRADCO has developed a group development program to help women master these challenges. This research-based program is ideal for those seeking to proactively manage their careers or advance to higher-level leadership positions.

We help women gain insight into their leadership style, network with other high-achieving women in business, and create strategies to deal with the behaviors and perceptions women face as they advance in their careers.

PRADCO's Striving for Excellence: Women in Leadership Program is six months long, and leverages research data and individual assessment results to help women reach their potential. Six group sessions are supplemented with one individual goal-setting session. This session allows participants to discuss their own unique challenges and aspirations, and to build a personalized development plan.

### PROGRAM GOAL

The goal is to further develop capabilities in female leaders through a process of learning and personal discovery, to make stronger contributions within their careers and the organizations they serve.
